

Open Source Software

Yealink products utilize several open-source software. The packages that contain the source code and the licenses for all of the open-source software are available upon request by contacting security@yealink.com.

License Information

Yealink IP Phone products utilize some software from the open-source community. Therefore, you must obtain the licenses according to the specific license terms applicable to the software. The following table lists the license information of the open-source software used by Yealink T3X, T4XU, T5XW, CP, and DECT IP phone series, for reference only. Yealink will provide the source code and licenses of the open-source software as you need.
